Improved productivity in Hansol Paper Daejon PM32

Valmet Breast Roll Shaker has Industrial Internet

Our breast roll shaker is connected to Valmet Industrial internet. Data is being collected continuously.

Also if we would encounter any problem with our shaker, Valmet specialist can connect to our system remotely. This is valuable feature as Valmet specialist is located in another country and time-zone.

Mr. Lee Chang-Mo, Production team, Hansol Paper Daejon BM32, Korea

Results

- Data is being collected continuously
- Remote specialist support
- Availability of shaker unit is maximized
