

# Upgrade to Proprietary Image Processing Software

The Valmet Furnace IR Camera System has the option to include our Digital Viewer (DV) or TempSentinel Through-The-Lens Pyrometer (TLP) Image Processing Software. Viewer provides colorization and integration into plant system. The addition of the Pyrometer allows for accurate temperature measurements in real time which can be transmitted to the DCS via 4–20mA signals. The software includes the following features:

- Video Colorization..... DV & TLP
- Timed Video & Image Capture ..... DV & TLP
- 8 User-Defined Temperature Zones..... TLP
- Measures Temperatures from 1000–3000°F..... TLP
- Automatic Disc Space Management ..... DV & TLP
- Accepts Multiple IP Video Streams ..... DV & TLP
- Easy to use Interface..... DV & TLP
- PC-Based Platform for Local or Remote Viewing..... DV & TLP
- IP Video Signal Allows for Simple Plant-Wide Video System Integration..... DV & TLP
